Contract Manufacturing Services

» THE RIGHT SOLUTION EVERY TIME

Expertise and excellence. We have settled for nothing less since our inception in 1988. We pride ourselves on developing and providing the highest quality in cable and thru-hole/SMT board services. We earned our reputation by combining our knowledge with the right partners to produce the right product at the right price. From initial design through prototype to production, our team of engineers, integrators and manufacturing experts work closely with our customers to provide the most trouble free and highest quality solutions for their cable and board assembly processing needs.

» QUALITY

ISO 9001:2008 Certified

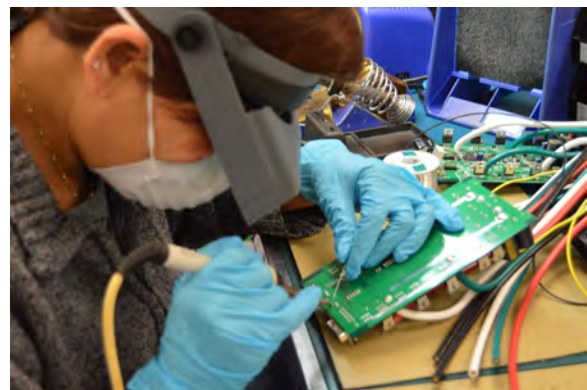

Our rigorous ISO 9001:2008 Certified Quality Management System proactively ensures that the highest levels of control and attention to detail will consistently produce the highest quality products. At CMS, accountability to our customer's expectations is our highest priority.

» MISSION STATEMENT

Exceed All Expectations

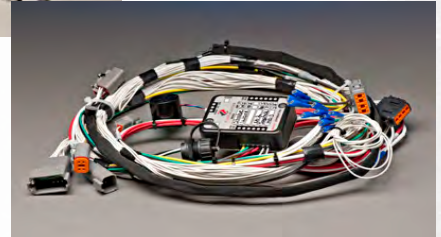

CMS Company's purpose is to provide the ultimate board and cable assembly solutions focused on on-time delivery, quality performance and price. We are a contract manufacturer and supplier committed to providing our customers with products and services that exceed expectations on every level.

» CABLE ASSEMBLIES

Various UL certified types & styles

With years of IPC standard experience in both discrete and IDC cable assemblies, CMS has the process and planning in place to assure 100% tested and marked cables, from discrete board to board to high speed UTP and STP I/O cables. No matter the run length or quantity, you can trust CMS to provide a turn-key solution that will exceed your application requirements.

» THRU-HOLE PCB & BOX BUILDS

Superior process, equipment and quality

Whether your leaded or ROHS compliant PCB application consists of thru-hole, press fit or hybrid board builds, CMS has the equipment and know-how to acquire, process and test your board design including full integration and box builds. All testing is on state of the art equipment and our pledge is to assure quality in every board we build.

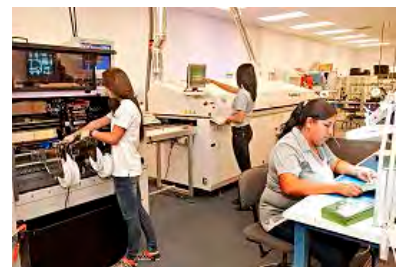

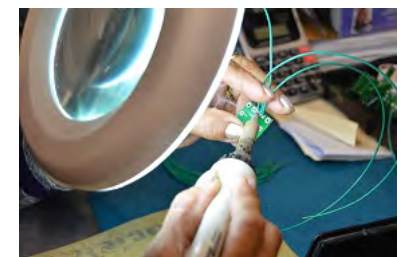

» SMT & HYBRID PCB BUILDS

State of the art experience for many sizes

The perfect complement to your design and manufacturing needs, CMS provides the flexibility and capability to handle all of your SMT PCB assembly and test. Our ISO facility is equipped to produce your prototype as well as your production needs, from purchasing to processing to test, CMS can ship your solution on time and within budget.
